A screenshot of a software application interface. In the foreground, a white warning dialog box is centered. The dialog has a title 'Warning' and a message: 'This is not a regularly scheduled delivery date for this customer. You are about to the change the delivery date for the order. Changing the delivery date may require repricing the ticket details based on the new delivery date. Do you want to continue?'. At the bottom right of the dialog are two buttons: 'Cancel' and 'Ok'. In the background, a dark-themed application window is visible. It has a top navigation bar with 'Order Entry >' and 'Open Orders'. Below this is a sub-navigation bar with 'Orders', 'Order Guides', and 'Standing Orders'. A modal window titled 'Select delivery date' is open, showing 'July 2024' and navigation arrows. The main content area of the application shows a table with columns: 'Is Loc', 'Order Status', 'Order Type', 'Order type description', 'Order created by', 'Customer Name', 'Quantity', 'Total', 'Sales rep', and 'Ship Date'. The table has several rows with data, and a 'Cancel' button is visible at the bottom right of the table area.
